ABOUT MYSELF

I am a problem solver that enjoys the process of figuring out solutions. I have many hobbies and keep an open mind. I am always looking to learn something new and gain new skills. I am driven by technical challenges and strive to do things the right way. I am a firm believer of leaving things in better condition than when I found them. I'm looking for a position that can fulfill my drive to create new and innovative solutions for problems.

MY LIFE PHILOSOPHY

"You should always strive to leave things better than when you found them."

"You learn something every day if you pay attention. – Ray LeBlond"

"Life is growth. If we stop growing, technically and spiritually, we are as good as dead. – Morihei Ueshiba"

FUN PROJECTS

Pi-hole
Network-wide Ad Blocking

Sense Hat
Sense HAT is an add-on board for Raspberry Pi that has 6 different sensors and an 8×8 RGB LED matrix.
